CarMD™ to Participate in Lauren Fix, the Car Coach® Fall Car Care Media Tour

FOUNTAIN VALLEY, Calif. – Oct. 1, 2006 – CarMD.com Corp. is pleased to announce its participation as a sponsor of the Lauren Fix, The Car Coach® October Fall Car Care Month Media Tour. The multi-city radio and satellite TV media tour features renowned automotive expert Fix reminding consumers that fall is a great time to prepare your car for winter driving conditions. CarMD™ is a revolutionary automotive diagnostic tool that empowers drivers with a fast, convenient way to monitor their vehicle's health.

"Lauren Fix and the Car Care Council share our philosophy that it is much better to monitor your vehicle's health as part of a regularly scheduled maintenance program than to be surprised when the 'check engine' light illuminates halfway into your holiday getaway," said Kristin Brocoff, marketing manager for CarMD.com Corp. "That is why CarMD is so pleased to be a part of this consumer campaign to educate drivers about preventative maintenance."

The CarMD tester, which fits easily inside a purse or toolbox, works on all 1996 and newer cars, light trucks, SUVs and minivans manufactured for use in the U.S. – foreign and domestic. Within seconds, the easy-to-use tester can tell you if the vehicle's systems are running normally, which is beneficial when inspecting a used car or preparing for a trip. CarMD customers also gain free access to an unprecedented diagnostic database. This feature is invaluable in helping drivers with little or no automotive experience determine why the "Check Engine" light is on. All CarMD customers need to do to get a detailed diagnostic report for their vehicle is install the CarMD software, link the tester to their PC via an included USB connector and create an account. The CarMD online database does the rest, including run a report with probable cause and estimated repair costs.
