Check Car Problems Off Your List This Holiday Season Thanks to CarMD
Award-Winning Consumer Automotive Device Is A Great Gift for Car Owners

FOUNTAIN VALLEY, Calif. – (July 25, 2007) Car problems don't care if you've got an important meeting or holiday road trip planned. Now, thanks to CarMD®, you can check for hidden problems or find out why the "Check Engine" light is on without having to wait until the repair shop opens. An ideal holiday gift for car owners, CarMD is available direct to consumers for \$89.99 at www.CarMD.com.

The CarMD handheld device, which fits easily inside a purse or glove compartment, works on all 1996 and newer cars, light trucks, SUVs and minivans manufactured for use in the U.S. – foreign and domestic. The easy-to-use tester can be used to quick check an unlimited number of vehicles. Within seconds, its color-coded LEDs tell the driver if the vehicle's systems are running normally, which is beneficial when inspecting a used car or preparing for a road trip.

CarMD customers also gain free access to an unprecedented diagnostic database with coverage for up to three household vehicles and support from ASE Certified technicians. This feature is invaluable in helping drivers with little or no automotive experience determine why their "Check Engine" light is on. All CarMD customers need to do to get a detailed diagnostic report for their vehicle is install the CarMD software, link the tester to their PC via an included USB connector and create an account. The CarMD online database does the rest, including run a report with probable cause and estimated dealer repair costs.

"Priced below a typical trip to the repair shop, CarMD provides empowerment and value for drivers," says Keith Andreasen, CarMD's director of technical services. "In the unfortunate event that your 'Check Engine' light comes on, consumers can now quickly determine the problem and what you can reasonably expect to pay to fix it. Drivers across the country are benefiting from CarMD, whether by saving time and money on repair costs, or obtaining peace of mind before taking a family road trip."

There are no monthly or annual subscription costs for the software or ASE support, which is also available at toll-free 888.MyCarMD, if you can't get to a computer but need a diagnosis while you're on the road.

About CarMD.com Corp.

The mission of Fountain Valley, Calif.-based CarMD.com Corp., is to empower consumers by providing the tools and information needed to make better-educated decisions about their vehicle's health and maintenance. Distributed by CarMD.com Corp., CarMD costs \$89.99 and is available in the U.S. direct to consumers via two convenient options: 1) toll-free phone: 888.MyCarMD (888.692.2763), or 2) online at www.CarMD.com.
